

### Ashland Public Schools - Ashland High School

Project Summary: The Town of Ashland is planning to construct a new high school that will be sensitive to the environment, will minimize energy consumption and maintenance, and will improve the learning environment for the students. The feasibility study grant will fund an in-depth analysis of a variety of <sup>3</sup>greening<sup>2</sup> opportunities, including study of renewable energy technologies such as fuel cells and solar power. MTC Grant Amount: \$20,000 Contact: Kevin P. Johnson, Supervisor of Buildings and Grounds, 508-881-0170
