

# A Guide to BSA

# Committees, Task Forces and Networks

---

*The BSA committee structure works because members and non-members have found it to be an excellent way to address and resolve philosophical and practical issues, to network, to have an impact on other professions in the industry — and to grow.*

*All members and friends of the BSA are urged to get a handle on the BSA and the profession in Massachusetts by investing some intellectual energy in one of these professional networks.*

*You are urged to review this annotated list of BSA committees, task forces and other networks and to return the preference form on the last sheet in this package to the BSA.*

*Thank you.*
