WORK

Self Tucker Architects, Memphis, TN 03/2011
Project Coordinator 06/2011

Schematic Design
Designed new unit floor plans and elevations for an 80-unit apartment complex renovation; presented material selections and design options to client. Rendered perspectives were featured at promotional events.

Design Development
Produced all as-built drawings, demolition plans, and design documents; coordinated progress with all consultants.

Construction Documentation
Produced all elevations, sections and detail drawings, working closely with consultants, product representatives and the client to finalize project documentation.

DeStefano + Partners, Chicago, IL 08/2006
Intern Architect 06/2008

Schematic Design
Conducted a detailed site analysis of the Springfield Capitol building in preparation for renovation.

Design Development
Produced interior elevations, casework drawings, and schedules for the renovation of the Harold L. Ickes public housing project.

Construction Documentation
Produced reflected ceiling plans, details, interior elevations, and schedules for the Chicago Public School Board's new high school prototype.

Produced construction documents for the Roosevelt Square Phase 2 residential development, including all interior elevations and schedules.

Construction Administration
Reviewed shop drawings for Phase 1 of the Roosevelt Square residential development.

Brook Architecture, Chicago, IL 08/2005
Intern Architect 08/2006

Schematic Design
Refined the design and composition of the elevation for a new multi-family condominium project, approved by both the client and the city planning board.

Construction Documentation
Produced construction documents for a variety of residential projects.

Marketing
Created computer renderings demonstrating optional elevations.
